Climate Action chart produced by South Shropshire Climate Action (a project run by the Marches Energy Agency (MEA) Charity number 1070942, Company number 03443349)

Reduce fossil fuels	Use renewable sources of energy	Reduce, re-use, recycle	Eat Sustainably	Support Nature and biodiversity	Promote effective soil management
Install better insulation in homes and workplaces	Sign up to a renewable energy tariff with your energy provider	Stop throw away culture: only buy what you need	Reduce 'food miles': buy local produce	Increase tree planting in the right place	Re-wet peatlands to stop them drying out or being washed away
Use low energy lighting: in homes, public buildings, streetlights	Install solar panels on homes, offices, public buildings	Avoid Fast Fashion: use charity shops and clothes swaps	Grow more food locally in gardens & allotments	Make public parks, gardens and verges Nature friendly and chemical free	Stop buying peat-based compost
Travel less in carbon intensive transport (cars/flying)	Install domestic energy storage (batteries)	Repair and repurpose: via charity shops and local 'repair cafes'	Eat more plant based foods	Volunteer at local nature reserves, parks and green spaces	Tell local garden centres to stop selling peat-based compost
Share lifts, join a car share club, use public transport	Support tidal, hydroelectric, water source heat pump schemes	Don't hoard things 'just in case': swap and share instead	Buy good quality local meat	Support farmers engaged in regenerative agriculture	Protect and restore wetlands (these also help reduce flooding)
Increase walking & cycling	Support on-shore wind	Avoid plastic packaging	Reduce food waste: don't buy or cook more than you need	Protect our rivers and oceans from plastic and pollution	Modify agriculture to stop soil being washed or blown away
Switch banks and pensions to ones that don't invest in fossil fuels	Support off-shore wind	Increase recycling	Compost food waste	Organise a litter pick or join a river monitoring group	Try 'No-dig' gardening
